

Environmentally Conscious Cleaning

CLEANING TODAY WITH TOMORROW IN MIND

Why Environmentally Conscious Cleaning?

Compliance – Many government and non-governmental organizations now require the purchase and use of products that have a reduced impact on the environment.

Cost Control – Products that have a reduced impact on the environment, particularly chemicals, may also pose a reduced risk to users and those surrounding them. Use of these products may help to minimize a company's liability for illness caused by more hazardous chemicals.

Customer Perception – The public increasingly views environmentally responsible organizations as preferable to those that have not taken such a stance.

Corporate Citizenship – Environmentally conscious cleaning advances companies' sustainable business strategies, improving both their business models and their role in the communities they serve.

Product Attributes for Consideration:

- Meet all government regulations
- Post-consumer and recovered fiber content
- Core/box recovered content
- Minimized solid waste from production
- No added coloring/fragrance
- No toxins in production or packaging
- Minimized resource consumption in production
- Sustainable forestry practices

Key Facts to Remember About Environmentally Conscious Cleaning

"...all products, packaging and services have some environmental impact, although some may have less than others."

(Federal Trade Commission, Facts for Consumers: Sorting Out "Green" Advertising Claims) This is particularly relevant to cleaning chemicals and consumables like paper and foodservice items. While certain products in these categories may have reduced environmental impact, they still create waste and/or release chemicals into the environment.

No one "green" standard exists.

A product needn't bear a particular seal, logo or certification to have a reduced impact on the environment.

In reduction of environmental impact, proper cleaning process is as important as product choice.

Compliance: Current Environmentally Conscious Cleaning Standards with the following standard.

Standard	Description	Audience
U.S. EPA Environmentally Preferable Purchasing	The EPA created the Environmentally Preferable Purchasing Program to help federal officials meet the requirement of purchasing environmentally preferable products. Environmentally preferable means “products . . . that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose.” This comparison applies to raw materials, manufacturing, packaging, distribution, use, reuse, operation, maintenance, and disposal.	Primarily federal agencies, but helpful to anyone interested in purchasing products with a reduced environmental impact
U.S. EPA Comprehensive Procurement Guidelines	EPA is required to designate products that are or can be made with recovered materials, and to recommend practices for buying these products. Once a product is designated, procuring agencies are required to purchase it with the highest recovered material content level practicable. EPA also issues guidance on buying recycled-content products in Recovered Materials Advisory Notices (RMANs). RMAN levels are updated as marketplace conditions change.	Primarily federal agencies, but helpful to anyone interested in purchasing products with a reduced environmental impact
U.S. EPA Design for the Environment	The DfE logo on a product means that the DfE scientific review team has screened each ingredient for potential human health and environmental effects and that—based on currently available information, EPA predictive models, and expert judgment—the product contains only those ingredients that pose the least concern among chemicals in their class.	Anyone interested in purchasing products with reduced environmental impact
Green Seal	Green Seal is an independent, nonprofit organization that issues science-based environmental certification standards. Product evaluations are conducted using a life-cycle approach to ensure that all significant environmental impacts of a product are considered.	Large institutional purchasers, including government agencies, universities, and the lodging and architectural building industries.
EcoLogo	EcoLogo is North America’s oldest environmental standard and certification organization (and the second oldest in the world). It is the only North American standard accredited by the Global Ecolabeling Network as meeting the international ISO 14024 standard for Type I (third-party certified, multi-attribute) environmental labels.	Anyone interested in purchasing products with reduced environmental impact
Carpet and Rug Institute	The Carpet and Rug Institute (CRI) is the science-based source for the facts about carpet and rugs. CRI’s Green Label program help specifiers identify products with very low emissions of VOCs. Green Label Plus sets an even higher standard for indoor air quality and ensures that customers are purchasing the very lowest emitting products on the market.	Any purchaser of carpet, adhesives and/or vacuum cleaners
The Biodegradable Products Institute	BPI promotes the use, and recycling of biodegradable polymeric materials (via composting). The BPI is open to any materials and products that demonstrate that they meet the requirements in ASTM D6400 or D6868, based on testing in an approved laboratory.	Anyone interested in compostable products

Paper

The following standard may be applicable to the paper category.
All products in this section comply with the following standard.

EPA COMPREHENSIVE PROCUREMENT GUIDELINES:

Recommended Recovered Content Levels for Commercial and Industrial Sanitary Tissue Products

NOTE: The content levels should be read as X% recovered fiber, including Y% postconsumer fiber and not as X% recovered fiber plus Y% postconsumer fiber.

Product Attributes for Consideration:

- Meet all government regulations
- Post-consumer and recovered fiber content
- Core/box recovered content
- Sustainable forestry practices
- No added coloring/fragrance
- No toxins in production or packaging
- Minimized resource consumption in production
- Minimized solid waste from production

Item	Postconsumer Fiber (%):	Recovered Fiber (%):
Bathroom Tissue	20-60	20-100
Paper Towels	40-60	40-100
Paper Napkins	30-60	30-100
Facial Tissue	10-15	10-100
General Purpose Industrial Wipers	40	40-100

EPA Guide for Federal Purchasers

EPA Designed for the Environment

Green Seal for Industrial & Institutional Cleaners (GS-37)

Green Seal for Industrial & Institutional Floor-Care Products (GS-40)

Product Attributes for Consideration:

- Comply with all governmental requirements
- Energy efficiency/effectiveness (i.e. designed for use in cold water, etc.)
- Formulation
 - Minimal corrosive/irritating ingredients, carcinogens, ozone-depleting compounds, regulated hazardous material, fragrances and heavy metals
 - Use of renewable resources
 - Low VOC content
 - Biodegradable
 - Low toxicity in terrestrial and aquatic species (including humans)
 - Low flammability
 - No mutagens, reproductive toxicity, and phosphates/phosphorus
 - Minimal contribution to poor indoor air quality
 - Concentrated formulas
- Packaging
 - Clear labeling on use and disposal
 - Efficient, recyclable, compostable and/or recycled content packaging
- Proper training available
- Minimal animal testing

Glass Cleaner

Prod ID	Product Description	Extended Description	Green Seal	EPA DfE	Biobased Ingredients
AMR R125-4	Misty® HD Glass Cleaner Concentrate	Nonammoniated, professional-strength glass cleaner quickly removes dirt, grease, grime and smoke film. Will not streak, smear or haze. Use as a light-duty, multipurpose cleaner for glass, mirrors, countertops, chrome, stainless steel, enamel, Formica®, ceramic and other washable surfaces. Biodegradable formula meets VOC guidelines. Dilutes up to 1:128 with water. Pleasant fragrance.		X	
CLO 00459	Clorox® Green Works™ Natural Glass & Surface Cleaner RTU	Powerful, natural cleaner without harsh chemical fumes or chemical residue. Cleaning power derived from the most effective natural sources, such as coconut-based cleaning agent, essential lemon oils, corn-based alcohol and earth-based materials. Cleans multiple surfaces throughout kitchen, bathroom and workplace. Safe for use on glass, mirrors, appliances and stainless steel. Cuts through filmy residue and cooked-on grease. Contains no phosphorous or bleach.		X	X
CLO 00460	Clorox® Green Works™ Natural Glass & Surface Cleaner RTU	Powerful, natural cleaner without harsh chemical fumes or chemical residue. Cleaning power derived from the most effective natural sources, such as coconut-based cleaning agent, essential lemon oils, corn-based alcohol and earth-based materials. Cleans multiple surfaces throughout kitchen, bathroom and workplace. Safe for use on glass, mirrors, appliances and stainless steel. Cuts through filmy residue and cooked-on grease. Contains no phosphorous or bleach.		X	X
SEV 8GC32	Seventh Generation Natural Glass & Surface Cleaner	Cleans without streaks and uses no harsh chemicals. Excellent for effectively cleaning glass, mirrors, chrome, and other hard surfaces around your home. Non-toxic. Hypo-allergenic. No dyes, fragrances, alcohols or petroleum based solvents. Biodegradable. Vegetable based. Not tested on animals. Gently scented with whole and natural plant essences.			X

All Purpose Cleaner

Prod ID	Product Description	Extended Description	Green Seal	EPA DfE	Biobased Ingredients
AMR R168-12	Misty® Green All-Purpose Cleaner RTU	Environmentally friendly yet powerful, ready-to-use formula is all organic and biodegradable. High-foaming, nonabrasive, general-purpose cleaner for use on most washable surfaces, including many plastics, painted surfaces and laminates. Cleans and deodorizes with a fresh citrus scent. Cleaning Accessories

Product Attributes for Consideration:

Microfiber – Cleaning with microfiber supports Environmental Conscious Cleaning in the following ways:

- Chemical Reduction - Reduces chemical usage by up to 95%
- Water Reduction – Exceptional absorbency and cleaning power reduces water usage by up to 90%
- Product Life Span - Lasts over 6-10x longer for substantial reduction in waste
- Cleaning Effectiveness - Cleans much faster; removes 97%+ of harmful strains of bacteria with water only
- Improved Indoor Air Quality – Traps dust, particulates and allergens

Recycled Content – Items made from recycled content help minimize waste that ultimately ends up in the environment

Microfiber Cloths & Dusters

Prod ID	Product Description	Extended Description	Microfiber	Recycled Content
KCC 83610	WYPALL* Microfiber Cloths with Microban® Protection	Environmentally friendly cleaning for lodging, office buildings and healthcare facilities. Built-in Microban® Antimicrobial Product Protection inhibits bacteria from thriving on the cloth, providing added strength against stain- and odor-causing bacteria. No chemicals needed—microfiber lifts and traps dirt and moisture, leaving behind a clean, dry surface. Quickly absorbs up to eight times its weight in liquid for a streak-free clean. Color-coded cloths help avoid cross-contamination. Machine washable. 15.7 5" x 15.75" cloths. 6 cloths per bag; 4 bags per case.	X

UNG PFD7G	Unger ProFlat Duster 75	Flat, extremely flexible duster for those hard-to-reach places. Easily gets into tight, narrow spaces such as between bookcases, under counters and more. Use as a hand tool or attach to pole (not incl.) for high-access dusting. Can be used wet or dry. Reusable microfiber sleeve is machine washable. Also includes three disposable electrostatically-charged replacement sleeves. 30" length.	X	

Mops

Prod ID	Product Description	Extended Description	Microfiber	Recycled Content
UNS 1200L	Unisan EchoMop Looped End Wet Head, Large	The first mop head made from recycled PET plastic bottles, contributing to reduced landfill waste, energy consumption and impact on greenhouse gases. EarthSpun® fibers provide cleaning that is both effective and environmentally responsible. Longer-lasting, lower-linting mop head offers 20% better performance than competitive all-synthetic wet mop yarns. Absorbs more than 4.4 times its weight in water and releases almost 30% upon wringing. Washable and fast drying. Dries amazingly quickly—90% dry after only the spin cycle of the washer; air dries 100% overnight. Wide 5" mesh headband works with clamp, quick-change or jaws mate handles (sold separately). Green. Contains 35% post-consumer recycled material. 12 mop heads per case.	X	X
UNS 1200M				

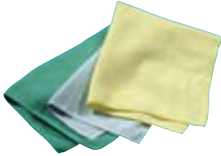

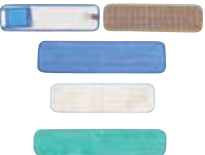

Prod ID	Product Description	Extended Description	Microfiber	Recycled Content
RCP Q409 BLU	Rubbermaid Commercial 18" Economy Wet Mopping Microfiber Pad	• The sanitation solution for hospitals and cleanrooms microfiber pads High-quality, dense, ultra-fine microfiber removes more dust, dirt and bacteria than conventional cleaning products. Releases cleaning solution evenly for effective sanitization. Trapezoidal shape. Fits RCP Q560 Pad Holder (sold separately). Blue. 18 x 5. 12 pads per case.	X	
RCP Q410 BLU	Rubbermaid Commercial Microfiber Wet Mopping Pads, 18" x 5"	• The sanitation solution for hospitals and cleanrooms microfiber pads High-quality, dense, ultra-fine microfiber removes bacteria, making cleaning quick and effective. Fibers pick up and hold dust, dirt and grime. Hypoallergenic, lint-free, nonabrasive and color-coded to improve sanitization. Double-bound edges for durability. Pads are stain resistant. Machine-washable pad withstands more than 500 washings. Bleach safe. Dry on low heat. Improved hook-and-loop backing attaches securely to pad holders. Micro fiber pad holders, handles and mop buckets are sold separately.	X

THE BIODEGRADABLE PRODUCTS INSTITUTE

Product Attributes for Consideration:

- Recycled Content – Made from pre- or post-consumer recovered/recycled content, which helps to reduce waste.
- Bio-based Ingredients – Made from renewable resources
- Biodegradable – Biodegradable when properly discarded.
- Compostable – Compostable when properly discarded in a commercially run compost facility.

Waste Receptacles

The following standard may be applicable to the waste receptacle category. All products in this section comply with the following standard.

EPA COMPREHENSIVE PROCUREMENT GUIDELINES FOR OFFICE RECYCLING CONTAINERS AND WASTE RECEPTACLES:

FOR PLASTIC, 20-100% POSTCONSUMER CONTENT

Waste Receptacles

Prod ID	Product Description	Extended Description	EPA CPG Compliant	Recycled Content*
RCP 1305-73 BLU	GOJO® FMX-12™ Green Certified Foam Hand Cleaner Refill, 3/1250 mL	• Easy-to-maneuver equipment can also serve as central collection containers or shipping containers to reduce handling Standard duty. 1/2 cubic yard, 750-lb. capacity. 28w x 60-1/2d x 38-5/8h. Shpg. wt. 77 lbs. (Cannot ship UPS.) Contains minimum 30% post consumer resin.	X	X
RCP 256R-73 BLU	Rubbermaid Commercial Glutton® Recycling Station	Provides a centralized collection solution for consumer waste and recycling sortation needs. 92-gallon combined capacity with segmentation for up to four separate 23-gallon waste containers. Restrictive-opening tops with iconic and word labels guide sortation and minimize contamination. Unifying station lid frame has center hinge for easy emptying without removing entire lid. Kit includes two Glutton® containers, four Slim Jim® containers, one station lid frame, eight restrictive-opening tops (four circles, two slots, one square, one triangle) and one label pack of iconic and word labels in three languages (English, French, Spanish). Corrosion- and impact-resistant plastic construction. ADA compliant. Assembled size: 24w x 53d x 35-1/2h. Shpg. wt. 66.4 lbs. Contains minimum 30% post consumer resin.	X	X
RCP 2632-73 BLU	Rubbermaid Commercial 32 gal BRUTE® Recycling Container	Seamless, polyethylene construction won't dent, rust or leak. Reinforced rim and base. All colors are NSF/USDA Approved for food contact and NSF tested/certified. Contains minimum 30% post consumer resin.	X	X
RCP 2643-73 BLU	Rubbermaid Commercial 44 gal BRUTE® Recycling Container	• Easy-to-maneuver equipment can also serve as central collection containers or shipping containers to reduce handling. Contains minimum 30% post consumer resin.	X	X
RCP 2955-73 BLU	Rubbermaid Commercial Deskside Recycling Container, Small with Universal Recycle Symbol	• Container shows "WE RECYCLE" imprint. Contains minimum 30% post consumer resin.	X	X
RCP 2956-73 BLU	Rubbermaid Commercial Deskside Recycling Container, Medium with Universal Recycle Symbol			
RCP 2957-73 BLU	Rubbermaid Commercial Deskside Recycling Container, Large with Universal Recycle Symbol			
RCP 3540-75 BLU	Rubbermaid Commercial 23 gal Slim Jim® Recycling Container	• Container shows "WE RECYCLE" imprint Provides a convenient central collection site in areas of high waste. 23-gallon capacity. 20w x 11d x 30h. Shpg. wt. 8 lbs. Contains minimum 30% post consumer resin.	X	X
RCP 3958-73 BLU	Rubbermaid Commercial 35 gal Square Recycling Container	• Container shows "WE RECYCLE" imprint High-capacity collection containers for high-volume areas. Contains minimum 30% post consumer resin.	X	X
RCP 3959-73 BLU	Rubbermaid Commercial 35 gal Square Recycling Container			

Prod ID	Product Description	Extended Description	EPA CPG Compliant	Recycled Content*
RCP 4616-73 BLU	Rubbermaid Commercial 16 cu ft. Recycling Cube Truck	• Easy-to-maneuver equipment can also serve as central collection containers or shipping containers to reduce handling 16 cubic feet, 500-lb. capacity. 31w x 43-3/4d x 37h. Shpg. wt. 51 lbs. (Cannot ship UPS.) Contains minimum 30% post consumer resin.	X	X
RCP 5712-73 BLU	Rubbermaid Commercial Recycling Box with Universal Recycle Symbol	• Container shows "WE RECYCLE" imprint 12-1/2-gallon capacity. 20w x 15-3/8d x 13-1/2h. Shpg. wt. 24 lbs. Contains minimum 30% post consumer resin.	X	X
RCP 9W27-73 BLU	Rubbermaid Commercial BRUTE® Recycling Rollout Container with Lid	• Easy-to-maneuver equipment can also serve as central collection containers or shipping containers to reduce handling 50-gallon container with 8" nonmarring wheels and attached lid. 23.4 sq. x 37h. Shpg. wt. 23 lbs. (Cannot ship UPS.) Contains minimum 30% post consumer resin.	X	X
RCP 3569-73 BLU	Rubbermaid Commercial 35 gal Untouchable® Square Container – Recycling	Handsfree waste disposal. Crack-resistant plastic withstands indoor/outdoor use. Contains minimum 30% post consumer resin.	X	X

Glossary of Commonly Used Terms*

Unless qualified by additional wording, in order to comply with FTC “Guides for the Use of Environmental Marketing Claims” (last revised in 1998), product claims must comply with the below descriptions. The “Green Guides” were last revised in 1998 and do not currently address claims such as “sustainable” and “renewable.”

Biodegradable - Will break down and return to nature within a reasonably short time after customary disposal. What a “reasonably short time” is depends on where the product is disposed. Biodegradable claims for products that go down the drain, like detergents and shampoos, may be substantiated if the product will degrade in wastewater treatment systems. A “reasonably short period of time” for biodegradability of products like detergents and shampoos that go into the wastewater treatment systems would be about the same time that it takes for sewage to be processed in the wastewater treatment systems.

Compostable - Will break down, or become part of usable compost (for example, soil-conditioning material or mulch), in a safe and timely manner in home compost piles. For composting, a “timely manner” is approximately the same time that it takes organic compounds, like leaves, grass, and food stuff, to compost.

Recyclable - Can be collected, separated or recovered from the solid waste stream and used again, or reused in the manufacture or assembly of another package or product through an established recycling program.

Recycled Content - Materials have been recovered or diverted from the solid waste stream, either during the manufacturing process (pre-consumer) or after consumer use (post-consumer). If the product or package does not consist of 100 percent recycled content (excluding minor, incidental components), qualifying words-like the percentage of recycled content in the product-must be used to limit the claim.

* As defined by the FTC in *Complying with the Environmental Marketing Guides*, available online at <http://www.ftc.gov/bcp/online/pubs/buspubs/greenguides.shtml>
